

# *What's involved?*

Applying to be appointed as a Deputy for someone can only be done after that person has lost capacity and is only required if there is no LPA in place. The person making the application must have a good knowledge of the finances and property affairs of the person they want to be Deputy for, and will also have to demonstrate, with verification from a professional, that that person no longer has the capacity to make decisions in relation to their own financial and property matters.

More details can be found [here](#) and we can help
